

Meeting #10

May 27, 2022

The following reflects the proceedings from the tenth (10th) meeting held of the Software Transparency Foundation on May 27th , 2022 at 9am (CET).

The meeting was called to order by Mr. José María Lancho Rodríguez and was held via video conference.

ATTENDEES:

The following attendees participated in the meeting:

Mr. José María Lancho Rodríguez

Mr. Alberto Gomez

Mr. Julian Coccia

Mr. Luis Español

The following attendees, representing sponsors and guests, participated in the meeting:

Mr. King Gao (Huawei)

Mr. Alec Zheng (Huawei)

AGENDA ITEMS:

1. Opening comments

Mr. Lancho Rodríguez thanked everyone for participating.

2. Sponsorship program

Mr. Coccia announced that the application of cooperation for academic institutions will be circulated in the next few days. This document will provide the basis for a cooperation between the Foundation and Universities as an intermediate step to a formal sponsorship. This will unlock interaction with a number of institutions with interest in cooperating with the Foundation on a non-sponsor basis.

3. Project Office Updates

Mr. Coccia presented updates from the project office.

The OSSKB.org project continues to increase adoption. A weekly report will become available in the next few days, which will reflect the total amount of queries per week with geolocation. This visibility will allow us to plan network expansion more effectively.

Regarding the European Commission's measures for a high common level of cybersecurity at EU institutions, Mr. Coccia highlighted that it is unfortunate that the measures seem to only worry about response and mitigation measures, while dismissing prevention, by encouraging the improvement in software composition analysis. This is reflected in President Biden's Executive Order where the requirement of SBOM is made explicit.

Mr. Zheng expressed interest in sponsoring an OSSKB.org mirror in Hong Kong, sponsored by Huawei and local universities. Technical discussions will be held in the next few days.

4. Marketing and events

Mr. Coccia introduced the Foundation at Huawei's Cybersecurity Transparency Center in Brussels. We thank Huawei and Mr. King for the opportunity to participate.

5. Closing comments

Mr. Lancho Rodríguez closed the meeting and scheduled the next meeting for June 24th at 9am (CET).
