

# Meeting #18

January 27, 2023

The following reflects the proceedings from the eighteenth (18th) meeting held of the Software Transparency Foundation on January 27th , 2023 at 9am (CET).

The meeting was called to order by Mr. José María Lancho and was held via video conference.

## ATTENDEES:

The following attendees participated in the meeting:

**Mr. José María Lancho Rodríguez**

**Mr. Julian Coccia**

The following attendees, representing sponsors and guests, participated in the meeting:

**Mr. Ismael Navas (University of Malaga)**

**Mr. Alberto Gomez (SCANOSS)**

## AGENDA ITEMS:

### 1. Opening comments

Mr. Lancho Rodríguez thanked everyone for participating and opened the meeting.

### 2. Sponsorship program

Growing interest from Universities. An email campaign will be launched in February.

### 3. Project Office Updates

A new load balancer was deployed, and a traffic limit has been established to avoid abuse and to make sure resources are available to all users. The limit page is available at <https://osskb.org/limit>

The University of Macedonia has published a research paper on Technical Debt in Java code, with information collected after analyzing 3.8B files in coordination with our sponsor SCANOSS to research Technical Debt in Java code across the entire Open Source community.

Mr. Navas continues to work in the OSSKB mirror setting at the University of Malaga. The technical contact at SCANOSS for this deployment is Alejandro Perez.

SCANOSS has released PURL to CPE relations as free data. The Foundation team is working to build an API service that will provide vulnerability information to OSSKB users.

### **5. Closing comments**

Mr. Lancho Rodriguez closed the meeting and scheduled the next meeting for February 24th at 9am (CET).
